LEARNING OUTSIDE THE CLASSROOM

Planned learning outside the classroom and a range of trips, activities and experiences which enrich a child's education will boost achievement and build memories that last long after school days have been left behind. Here at Chailey we offer a wide range of all of these.

This leaflet gives a snapshot of life at Chailey School beyond the classroom.

The Christmas Fayre, Christmas and Summer shows, Curriculum Enrichment Week activities across the subjects, a range of instrumental and voice lessons in Music and the Shakespeare Schools' Festival see our students performing with enthusiasm and gives them the opportunity to display their talents and pursue their interests.

Tutorial time gives opportunities for careers information, the 'Clipbank' daily news 'blast', discussion of items for Year and School Council, debates, paired maths and reading groups, quiet reading and circle time for Year 7 run by prefects and peer mentors.

Mentoring of older students and planned revision days support success in tests and examinations.
