

My Future Starts Here

Information for parents and carers

Who are we and what do we do?

We are an independent careers company providing impartial information advice and guidance. We work with young people, helping them to develop resilience and prepare for a successful future in today's competitive world.

We work with them so that they understand the meaning of **employability**.

We introduce them to the idea of **career capital**. They find out about today's world of work, the need to learn new skills, and to be more aware of the ever-changing world we all live in.

- Young people learn to think about themselves — their strengths, their enthusiasms, what they have to offer.
- They learn that what they achieve in the present will shape the possibilities they can access in the future.
- They learn about labour markets and the need to keep finding out about the world of work.

We encourage them to have a positive attitude and to be ambitious.

How do we support young people?

- We help them to develop confidence and self-belief.
- We enable them to understand the world of work in the 21st century.
- We encourage them to make the most of their individual talents and to aim high.
